Authorization for this examiner's amendment was given in a telephone interview with Denise Bergen on February 4, 2008.

The application has been amended as follows:

In the Claims:

In claim 50, delete "claim 48" and insert --claim 45-- to change the dependency from canceled claim 48 to pending claim 45.

The following is an examiner's statement of reasons for allowance:

It is well known to use precursors containing carbon-carbon triple bonds to form carbon doped silicon oxide films as noted by Rhee. The use of dual frequency plasmas to form silicon carbide layers is also well known as noted by Nemani et al. (6,589,888). However, the Wu Declaration dated 11/21/07 clearly shows the unexpected results (see Appendices B, C and paragraphs 6-8 specifically) from the combination of the use of a dual frequency plasma and a precursor containing carbon-carbon triple bond to form a carbon doped silicon oxide film having a dielectric constant of not greater than about 3 and/or a cracking threshold of at least about 3 um.

Art Unit: 1792

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
